

# THE INSTITUTE

OF CONSTRUCTION ADVISORS & CONSULTANTS

## THE AI TRACK

Your firm is already **using AI**.

## Does your team actually know how?

For general contractors, owner's representatives and professional services firms already experimenting with AI: five sessions built around **hands-on skills, not theory** - from speakers who work in this every day.

5

CONSTRUCTION TECHNOLOGY

### Nicholas Johnson

When the System Doesn't Fit the Work: How configurability, connected data and AI are changing the construction technology equation

#### WHAT YOU'LL WALK AWAY WITH

- Real workflows you build yourself, not just watch
- A framework for where AI helps vs. where it doesn't
- Fraud & audit red flags AI is already catching
- Ideas you can bring back to your team immediately after the conference
